PROFESSIONAL SUMMARY

Full-Stack Developer (MERN) with hands-on experience building production-grade web applications, internal admin systems, and a cross-platform desktop employee tracker. Strong in offline-first architecture, real-time systems (WebRTC), payment integrations, and bulk data processing. Proven ability to debug complex production issues and deliver reliable, user-focused solutions.

SKILLS

- **Frontend:** React.js, Next.js, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, REST API Design
- **Desktop & Real-Time:** Electron.js, WebRTC, RxDB, Offline-First Architecture, Queue Management
- **Database & Cloud:** MongoDB, PostgreSQL, AWS S3, Presigned URLs, Media Upload Pipelines, Redis
- **Tools:** Git, GitHub, Postman, Python, ExcelJS
- **AI & Productivity Tools:** AI Literacy, Claude AI, Prompt Engineering

PROFESSIONAL EXPERIENCE

Azeosoft Web Technologies Pvt. Ltd. — MERN Full-Stack Developer

Jul 2026 – Present

Previously: MERN Full-Stack Developer Trainee | Oct 2025 – Jun 2026

Azeosoft Tracker — Workforce Intelligence Platform (Desktop + Web) [\[Link\]](#)

- Built core Electron.js tracking features (screenshots, application/browser activity, keypress logging, live session timer) plus real-time WebRTC screen monitoring for admins.
- Architected an offline-first sync layer (RxDB + queue management) and an AWS S3 presigned-URL media upload pipeline with retry/failure handling.
- Implemented break management, manual time entry with validation, offline login with token persistence, and full API integration for tracking, sync, and live monitoring.
- Researched advanced tracker features including USB file copy tracking, window/application tracking, and network activity monitoring.
- Improved UI/UX including the mini tracker interface, dashboards, tracking controls, and tracker web frontend feature/pricing pages.

D2C E-Commerce Admin Panel (Internal Tool) [\[Link\]](#)

- Built a scalable admin dashboard for products, categories, banners, orders, sellers, and reports, including a dynamic multi-variant category/attribute system with image cropping.
- Developed an Excel-based bulk product upload system (ExcelJS) with validation and upload history tracking; integrated 20+ REST APIs across admin modules.
- Built seller onboarding/approval and commission workflows and an invoice generation system with multiple templates and dynamic data mapping.
- Debugged critical production issues (image URL mapping, API mismatches, category/banner bugs, DB connectivity) and improved admin UX with responsive UI and real-time state updates.

PERSONAL PROJECTS

- **Hizashi Sora — E-Commerce Website:** Full-stack platform with secure auth, Razorpay payments, Google OAuth, automated email notifications, and AWS S3 image storage; deployed on Vercel with a custom domain.
- **CatTrend — Cat-Themed Blog:** CRUD-powered blogging platform with responsive UI, Node.js backend, and MongoDB storage.

EDUCATION

- B.Com — HNBGU (DAV PG College) | Dec 2017 – Dec 2020

CERTIFICATIONS & COURSES

- Claude 101 & AI Fluency: Framework & Foundations — Anthropic | Jun 2026
- Python (Udemy) · Postman API (Postman) · Web Development (Udemy) | 2024
- Programming with JavaScript (Coursera) · O Level (NIELIT) | Dec 2024
- Course on Computer Concepts (CCC) — NIELIT | Feb 2021
